

City of Seattle Preliminary Assessment Report

September 10, 2008

This report represents a preliminary determination of project requirements from various city departments based on project characteristics that you identified on the Site Plan and the Preliminary Application Form. The city's goal is to provide you with as much information and assistance as possible prior to your permit application submittal. Complete and accurate application materials help to reduce the need for correction cycles that delay permit approval. This coordinated list of requirements and decisions has been created for you to use as a reference for creating a more complete submittal package. The information in this report can also be utilized if you need to develop a street improvement plan (SIP) for submittal to SDOT for screening and acceptance (SDOT CAM 2206 and 2209).

Note: The applicant assumes full responsibility for determining all permit requirements and infrastructure improvements per applicable sections of the Seattle Municipal Code and the City of Seattle's Right-of-Way Improvement manual.

- If a SIP is required, SDOT must accept your SIP before DPD construction intake (see CAM 2209).
- If street improvements are required, you must obtain all necessary permits from SDOT.
- Street use permits are required for all work in the right-of-way (see SDOT CAM 2100).

Project Summary

AP/Project No.	6192530	Ground Disturbance	Y
Application Template	BLDG	Description of Work	Construct (2) unit wood frame townhouse with required.
Application Type	CONSTRUCTION AND DEVELOPMENT		
Category	MULTIFAMILY		
DPD Review Type	FULL		
Address	4738 22nd Ave NE	Permit Remarks	
Location			
Zoning			
King County APN	0925049363	Applicant	ROGER NEWELL 1102 19TH AVE E SEATTLE WA 98112 (206) 794-5226
Permit Status	Initial Information Collected		
Linked AP/Project Nos.	3007607		
Date PASV Completed	08/29/08	Applicant Email	roger@rhnewellaia.com
SDOT Project No			

Seattle City Light Requirements

Contact: Ray Ramos, (206) 615-1193, ray.ramos@seattle.gov

Street and Alley Requirements 22ND AVE NE

10-foot horizontal clearance required between power lines and permanent structures. Review DPD CAM 122, Electric Utility Clearance Requirements, and SCL Construction Guideline D2-3, Clearances from Structures and Ground (<http://www.seattle.gov/Light/engstd/>). Changes to SCL's system to meet clearances are done at the project's expense. There are high voltage lines overhead on the east side of 22nd Ave NE.

State law requires construction workers, their tools, machinery, equipment, and materials to maintain a 10-foot clearance from power lines. Review WAC 296-24-960. Transmission lines require greater clearance. To work near power lines, notify SCL well in advance to de-energize and ground the lines, or relocate the lines

temporarily. This SCL work is done at the project's expense. There are high voltage lines overhead on the east side of 22nd Ave NE.

DPD Drainage Requirements

Contact: Kim Serwold, (206) 733-9340, kim.serwold@seattle.gov

Existing Public Drainage Infrastructure

Combined sewer main location: 22nd Ave. NE.
Combined sewer main size: 8"

Drainage

The drainage point of discharge (SMC 22.802.015.C.1) is located at: Combined sewer.
Projects with 2,000 ft2 or more of new and replaced impervious surface combined between the right of way and private property shall be required to install and maintain a stormwater flow control facility designed for the 25-year storm event (SMC 22.802.015 C2).

Sanitary Sewer

The wastewater point of discharge (SMC 21.16.070.B) is located at 8" combined system.
All homeowners and building owners in King County's service area whose home or building was newly connected to the King County sewer system on or after Feb. 1, 1990 must pay a King County Capacity Charge. Further information is available online at <http://dnr.metrokc.gov/wtd/capchrg/>

Permanent and Temporary Dewatering

The footing drain (if part of building plan) point of discharge (DPD DR 3-2006/SPU DR 02-06 VII.H) is located at the following: Combined system.

DPD Land Use Code Requirements

Contact: Branin Burdette, (206) 615-1331, branin.burdette@seattle.gov

Street Requirements

Based on the scope of the proposed project, the following street improvements are required per Chapter 23.53 of the Seattle Municipal Code. Please review Right-of-Way Improvements Manual for design criteria (<http://www.seattle.gov/transportation/rowmanual/manual/>). Show required street improvements on your "enhanced site plan" at DPD permit application intake. If an SDOT Street Improvement Plan (SIP) is required, please list SDOT project number and SDOT contact name on the enhanced site plan. Street Improvement Plans must be accepted by SDOT prior to DPD permit application intake.

22ND AVE NE

Street trees shall be provided in the planting strip according to Seattle Department of Transportation Tree Planting Standards. Contact SDOT Urban Forestry (for residential projects: (206) 684-TREE; for all others: (206) 684-5693), to determine species of tree and standards of planting. Please add a note to the site plan showing size, location and species of tree to be planted.
<http://www.seattle.gov/transportation/treeplanting.htm>.

Notes to Applicant

Although not a part of this review, I'm concerned how cars are propped to back out onto an Arterial per SMC 23.54.030 D1b. Applicant should notate plans with code section addressing backing out onto Arterial.

SDOT Requirements

Contact: Joel Prather, (206) 615-0772, joel.prather@seattle.gov

The City of Seattle's Right-of-Way Improvements Manual (ROWIM) and SDOT's Street & Sidewalk Pavement Opening and Restoration (PORR) Director's Rule 2004-02 may be accessed from SDOT's Street Use website at: http://www.seattle.gov/transportation/stuse_docs.htm. Whenever possible, specific reference notation for these two design documents is noted next to the design characteristics below. Be advised that these specific section and chapter references are provided as preliminary guidance only and are not comprehensive in scope.

Permit Requirements

Initial Review Deposit: To be determined
SDOT Plan Requirements: Plan
SDOT Permit Requirements: Group 1:Over-the-Counter. Obtain from SDOT anytime prior to construction of installation.

Design Requirements

22ND AVE NE

New/replacement driveway

Other requirements: construct 6" thick concrete drwy curb cut (DPD permit) in ROW per standard plan 430A.

SPU Requirements

Contact: Jennyfer Jacobsen, (206) 684-8766, JacobsJS@seattle.gov

Existing Public Infrastructure - Water

Water main location: 22nd Ave NE

Water main size: 8-inch

Water main pipe material: CI

Closest fire hydrant location: At Mid block of 22nd Ave NE between NE 50th ST & NE 47th ST

Closest fire hydrant distance from property line: 100'

Water Availability

The water infrastructure information shown is preliminary. Apply for a water availability review. Additional information and a review application can be found on our web site: <http://www.seattle.gov/util>

Other Requirements

Owners of residential property occupied by a tenant who will be displaced by housing demolition, substantial rehabilitation, change of use, or removal of use restrictions may need to obtain a Tenant Relocation License. Refer to DPD CAM 123, Seattle's Tenant Relocation Assistance Ordinance, for further information and instructions or call (206) 684-7889.

If your project involves additions or modification to or demolition of an existing building that contains four or more dwelling units or 4,000 square feet or more of non-residential area, and the building is a designated historic landmark or is 50 years old and meets the criteria set forth in SMC 25.12 for landmark designation, SEPA is required. Please contact the Department of Neighborhoods at (206) 684-0228 or www.seattle.gov/neighborhoods/preservation to determine if your building is a designated landmark or if a referral is necessary to determine if the building meets the criteria in SMC 25.12. Refer to CAM 208 for information regarding the application requirements for a SEPA review and CAM 3000 for information regarding landmarks and historic preservation.

Please Note: SDOT policy prohibits the removal of trees in the public right-of-way. You are required to design your project to meet SDOT's policy. Exceptions to this policy require review and approval by SDOT Urban Forestry. For residential projects, call (206) 684-TREE; for all others, call (206) 684-5693. Please contact SDOT Urban Forestry immediately if you are proposing to remove street trees. If an exception from street tree removal is not granted, the project will need to be redesigned to preserve street trees.

Applicant Next Steps

1. Please review the requirements set forth in this report.
2. Use Client Assistance Memos (CAMs), checklists and standards, and 5 Steps for a Successful DPD Application Submittal available on the DPD website for additional information.
3. Call or e-mail the appropriate contact if you have any outstanding questions.
4. If a SIP is required, you must submit it to SDOT to screen for acceptance a minimum of five days prior to DPD construction intake. DPD will not accept your application until this has been done.
5. Use the Seattle City Light website to obtain a range of information and services including the Requirements for Electric Service Connection (RESC), electric service applications and guidelines (<http://www.seattle.gov/light/newconstruction/>).
6. Contact an Electric Service Representative for your electrical service design and connection questions:
North of Denny Way (206) 615-0600
South of Denny Way (206) 386-4200
Large Commercial & Industrial (206) 233-7177
Service Applications (206) 233-APPS (2777)

7. If you have additional questions or need additional help, you may request a pre-submittal conference. For more information, call (206) 684-8850 or go to DPD's website for a copy of the pre-submittal conference application and instructions (http://www.seattle.gov/dpd/Publications/Forms/Building_Permit/default.asp).
8. When all issues have been addressed, you may schedule an intake appointment with DPD.

The requirements and determinations set forth in this document are based on the following:

Details provided by the applicant on the preliminary application form and site plan submitted to DPD. If project criteria are changed before your SDOT SIP is designed and/or before your DPD intake, the requirements in this report are subject to change.

Current municipal codes and ordinances, which may be subject to change. If there are code changes prior to your DPD intake, the project must meet the new code requirements unless it is vested through a published master use permit (MUP) decision.

The scope of your proposed project as described in the preliminary application form. Additional street improvement requirements may be triggered if a permit application for a development project on adjacent property is also undergoing review.
